

IDEXX SNAP* Beta-Lactam ST Test

*Simplicity from IDEXX**

A simply better test.

This *Simplified Test* delivers the reliable results you need, more efficiently. Simply pour, snap and read—no incubation required. The IDEXX SNAP Beta-Lactam ST is the only rapid test to deliver these results without a heater block.

Residue testing like no other

The IDEXX SNAP Beta-Lactam ST Test provides the proven reliability and simplified testing that dairy professionals need to safeguard milk. It delivers:

- **More efficient testing.** No incubation means less equipment, less training, less error, less time. And confident results in just 6 minutes.
- **Definitive results.** Simply compare the sample spots to the control spots to determine whether the milk is safe or contaminated. Or run it through your SNAPshot® DSR Reader to record the results.
- **Fine-tuned sensitivity.** Improved sensitivities help the IDEXX SNAP Beta-Lactam ST ensure your milk is safe and compliant with fewer false positives and less risk of dumping safe milk.
- **Proven technology.** Since inventing the SNAP test nearly 25 years ago, IDEXX has sold millions of SNAP tests, making it a trusted solution in diagnostic testing.
